

AGROTOURISM CA NA XINI

Rural tourism in Menorca. Hort Sant Patrici is the property where our family has spent the last 30 years or more working in the Menorcan countryside.

After more than three decades of hard work and effort, Hort Sant Patrici is no longer just a cheese dairy where Menorcan cheese is still craft-made using traditional methods. Today, future plans are no longer a dream but are beginning to become a reality. The common thread that binds all of the family's aspirations to the land, cheese, wine, oil, art ... is simply a reflection of the passion that we put into everything we do. Today it is our pleasure to share our dreams with you, welcoming you to the symbol of our enterprise, the Mansion of Ca Na Xini.

Ca Na Xini is peace, unspoilt nature, and traditional country activities – **the farms neighbouring the rural hotel, in Hort Sant Patrici, wine-growing, cheese-making with the Mahón-Menorca Appellation, and a small output of extra virgin olive oil.**

In short, a unique rural hotel in Menorca.
